The screenshot shows the HealthTrainU website homepage. At the top is a dark blue navigation bar with the HealthTrainU logo and links for Home, About, Education, Pricing, Survey, HR-Trak, Contact, and Login. The main content area features a large white banner with the text "Welcome to Your All-Inclusive Education Resource" and a sub-headline "HealthTrainU™ gives you access to high-quality, industry relevant education and training material". To the right of the text are several icons representing education and technology. Below the banner is a dark blue horizontal bar with four white buttons: "View Courses" (with a book icon), "Competitive Pricing" (with a price tag icon), "Take Our Survey" (with a clipboard icon), and the ACHC HR Trak logo. The bottom section of the page is titled "Featured Course" and lists "HME 402: Infection Control and Bloodborne Pathogens". It includes a description: "Add the HealthTrainU™ course 'Infection Control and Bloodborne Pathogens' to your required learning list for your employees. Help them learn how to stay". To the right of the text is a photograph of a person in a lab coat using a pipette to transfer liquid into a multi-well plate.

The screenshot shows the HealthTrainU website interface. At the top is a dark blue navigation bar with the HealthTrainU logo and links for Home, About, Education, Pricing, Survey, HR-Trak, Contact, and Login. Below the navigation is a hero section featuring a blurred background of stacks of books and an open book in the center. The text 'HealthTrainU™ Courses' is overlaid on the image. Below the hero section is a white box containing the following text:

Personalized educational resources are available for all industry professionals.

Every HealthTrainU™ course stands alone and a certificate is available to all students who have satisfactorily completed their coursework – completion means 80% grade or better.

While HealthTrainU™ is an IACET Accredited Provider (AP), some courses are also approved or accepted by credentialing agencies. Look for your organization beside the course title (Pre-ATP means RESNA will accept the course for credit prior to taking the ATP exam, RA means RESNA has accepted that course for post-ATP credit).

At the bottom of the screenshot, there are four dark blue buttons with white text and a plus sign, arranged in a 2x2 grid:

The screenshot shows the top navigation bar of the HealthTrainU website with links for Home, About, Education, Pricing, Survey, HR-Trak, Contact, and Login. The main banner features a target graphic with arrows hitting the bullseye and the text "HealthTrainU™ Mastery Programs". Below the banner, the heading "HealthTrainU™ Mastery Programs offer in-depth, on-point training" is followed by two paragraphs of text. The first paragraph explains that Mastery Programs are tailored compilations of courses. The second paragraph details the inclusion of Continuing Organization Required Education (CORE) courses. A final note at the bottom states that the list is abbreviated and that all programs have a focus on rehab, respiratory, or both.

HealthTrainU™ Mastery Programs offer in-depth, on-point training

Mastery Programs are a compilation of courses that have been developed to take the time and guesswork out of selecting appropriate courses. Each Mastery Program is tailored to your company's focus in DME/HME, rehab, respiratory, or a comprehensive program with all.

Inside each Mastery Program is a list of **Continuing Organization Required Education (CORE)** courses that provide a fundamental education of the HME/DME industry. This is the basis for all other content within the Mastery Program. The remainder of the Mastery Program is exactly that, mastery in the foundational skills needed for the staff positions that are the focus of your company. You can take advantage of the courses we have available, or you now have the ability to create your own.

This is a very abbreviated list of just some of the Mastery Programs pre-loaded in the HealthTrainU™ system.
(* All Mastery Programs based on positions have a Rehab focus, Respiratory focus, or include both focuses)
