HealthTrainU™ Mastery Programs offer in-depth, on-point training

Mastery Programs are a compilation of courses that have been developed to take the time and guesswork out of selecting appropriate courses. Each Mastery Program is tailored to your company's focus in DME/HME, rehab, respiratory, or a comprehensive program with all.

Inside each Mastery Program is a list of **Continuing Organization Required Education (CORE)** courses that provide a fundamental education of the HME/DME industry. This is the basis for all other content within the Mastery Program. The remainder of the Mastery Program is exactly that, mastery in the foundational skills needed for the staff positions that are the focus of your company. You can take advantage of the courses we have available, or you now have the ability to create your own.

This is a very abbreviated list of just some of the Mastery Programs pre-loaded in the HealthTrainU™ system.
(* All Mastery Programs based on positions have a Rehab focus, Respiratory focus, or include both focuses)
