Upcoming Accreditation Workshops

Why Attend?

ACHCU workshops feature an in-depth look at the ACHC accreditation process and a comprehensive review of the ACHC Standards and the Conditions of Participation.
Take Your Home Health Agency to the Next Level
Elevate Your Agency Master Class Series

How to Find Patients for Your Agency
Mariam Treystman, Smart Business Solutions, Inc.

How-to Guide to Building a Successful Home Health QAPI Program

Health Edition January 2023

ACHCU.com/MasterClass
Become a Certified Consultant

- ACHC Certified Consultants are industry experts that help their customers prepare for and maintain ACHC Accreditation.
- Join us in January!
Objectives

1. The learner will be able understand why the OASIS is changing.
2. The learner will be able to define the new items and the importance of these items.
3. The learner will be able to operationalize important items with the OASIS-E.
Why Change the OASIS?

- Per the OASIS-E Guidance Manual:
  - “Currently the main reason for revising OASIS is to increase standardization across post-acute care (PAC) settings to uniformly collect social determinants of health data and to enable calculation of standardized, cross-setting quality measures (QMs), pursuant to the provisions of the Improving Medicare Post-Acute Care Transformation (IMPACT) Act. Standardized assessment data elements are assessment items and Code options that are harmonized across four PAC assessment instruments, and to which aligned standards and definitions apply.”

- Post Acute Care/IMPACT Act
  - On October 6, 2014, the IMPACT Act was signed into law.
  - The Act intends for standardized post-acute care data to improve Medicare beneficiary outcomes through shared-decision making, care coordination, and enhanced discharge planning.
IMPACT Act

- CMS Meaningful Measure priority areas are:
  - Promote effective communication and coordination of care
  - Promote effective prevention and treatment of chronic disease
  - Work with communities to promote best practices of healthy living
  - Make care affordable
  - Make care safer by reducing harm, cost in the delivery of care
  - Strengthen person and family engagement as partners in their care

(Reference: Search “Impact Act” or use this link)
IMPACT Act

- Quality Measure Domains:
- Skin integrity and changes in skin integrity;
- Functional status, cognitive function, and changes in function and cognitive function;
- Medication reconciliation;
- Incidence of major falls;
- Transfer of health information and care preferences when an individual transitions.

(Reference: Search “Impact Act” or use this link)
IMPACT Act

- Resource Use and Other Measure Domains:
- Resource use measures, including total estimated Medicare spending per beneficiary;
- Discharge to community; and
- All-condition risk-adjusted potentially preventable hospital readmissions rates.

(Reference: Search “Impact Act” or use this link)
Changes From OASIS-D1 To OASIS-E

- Removal of items:
  1. M1030
  2. M1051/1056
  3. M1200
  4. M1242
  5. M1910
  7. M2401a Diabetic foot care
Changes From OASIS-D1 To OASIS-E

- Addition of new OASIS-E items:
  1. A1110. Language
  2. A1250. Transportation
  3. A2121/2120. Provision of Current Reconciled Medication List to Subsequent Provider at Discharge/Transfer
  4. A2122. Route of Current Reconciled Medication List Transmission to Subsequent Provider
  5. A2123. Provision of Current Reconciled Medication List Transmission to Patient at Discharge
  6. A2124. Route of Current Reconciled Medication List Transmission to Patient
  7. B0200. Hearing
  8. B1300. Health Literacy
  9. C0100. Should Brief Interview for Mental Status be Conducted?
  10. C0200 – C0500: BIMS
  11. C1310. Signs and Symptoms of Delirium (from CAM)
  12. D0160. Total Severity Score
  13. D0700. Social Isolation
  15. J0520. Pain Interference with Therapy Activities
  17. K0520. Nutritional Approaches
  18. N0415. High-Risk Drug Classes: Use and Indication
  19. O0110. Special Treatments, Procedures, and Programs
### Time Estimated for Each Timepoint

*(
$30,020.39 per HHA)*
OASIS-E (Draft) Notable Differences

- Standardization of formatting
- Items sequenced differently
- Some items separated (Race/Ethnicity for example)
- In the revised OASIS-E draft, “Patient declines to respond” was added as an option to the SDoH items
  - A1005 Ethnicity
  - A1010 Race
  - A1250 Transportation
  - B1300 Health literacy
  - D0700 Social Isolation
OASIS Item Criteria

- To be included in the OASIS data set, an item must meet one or more of these criteria:
  1. Calculate a measure for Home Health Quality Reporting Program (HHQRP)
  2. Contribute to calculation of payment
  3. Be used in the Medicare survey process
  4. Calculate a measure in Care Compare
OASIS-E Sections

- Due to the mix of existing M items and new items adopted from other settings, the OASIS is now presented in Sections.

OASIS is All about the Data

- Multiple uses of the OASIS tool:
  - Conditions of Participation (CoPs)
  - Measurement of quality of care and care processes
  - Episode payment / reimbursement
  - Measurement of resource utilization
  - Identification of patterns of fraud and abuse
  - Value Based Purchasing (VBP)
Pay for Reporting

- OASIS assists CMS in addressing requirements for Pay for Reporting
  - Data submitted appropriate for the measurement of healthcare quality
  - All providers must submit data reporting for the following domains across settings:
    - Patient assessment data standardized across PAC (Post-Acute Care) settings
    - Quality measures (functional status, cognitive function, skin integrity, incidence of falls, medication reconciliation, care coordination)
    - Measures of resource use, d/c to community, preventable hospital readmission rates
Organization of OASIS-E Manual

- Chapter 1- Introduction to the Manual
- Chapter 2- Importance of Data Accuracy
- Chapter 3- Item Specific Guidance
- Appendix A- Glossary and Common Acronyms
- Appendix B- OASIS Items, time points and uses table
- Appendix C- OASIS Instruments
- Appendix D- Description of changes from OASIS-D to OASIS-E
- Appendix E- References and Resources
- Appendix F- OASIS and Quality Improvement
New OASIS Version

- All previous guidance is now rolled into the new version. Be sure to understand the item intent and guidance for not only the new items, but also all the current items. Will be effective 1/1/2023 (M0090 date).
Social Determinants of Health

- Economic Stability
- Education Access and Quality
- Health Care Access and Quality
- Neighborhood and Built Environment
- Social and Community Context
Why Are Social Determinants of Health Important?

- Social determinants have a major impact on health outcomes - especially for the most vulnerable populations. Factors such as a patient's education, income level, and environment must be considered when providing treatment and care.

- The impact of such factors on health is defined by Healthy People 2020 as social determinants of health: “Social determinants of health are conditions in the environments in which people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks.” When resources are available to overcome negative social determinants of health, they can have a significant impact on population health outcomes.
OASIS-E Social Determinants of Health

- Most are in Section A- Administrative Information
  - A1005-Ethnicity- Declines to respond-NO OTHER SOURCE
  - A1010-Race- Declines to respond-NO OTHER SOURCE
  - A1110-Preferred Language/Interpreter
  - A1250-Transportation (past 6 months to a year) Declines to respond-NO OTHER SOURCE

- Section B-Hearing, Speech, Vision
  - B1300-Health Literacy- Patient Report Only

- Section D-Mood
  - D0700 - Social Isolation- Patient Report Only
Administrative Things To Monitor

- Easily identifiable to Surveyors
- Do you have written materials in preferred language
- Translator/sign language/contracts in place
- Policies related to this if not already in place
Administrative Things To Monitor

- What will we do if we identify?
- Policies?
- Increase in MSW
- Consider a robust community resources handout

A1250. Transportation (NACHC ©)
Has lack of transportation kept you from medical appointments, meetings, work, or from getting things needed for daily living?

- Check all that apply

- A. Yes, it has kept me from medical appointments or from getting my medications
- B. Yes, it has kept me from non-medical meetings, appointments, work, or from getting things that I need
- C. No
- X. Patient unable to respond
- Y. Patient declines to respond

Adapted from: NACHC© 2019. National Association of Community Health Centers, Inc., Association of Asian Pacific Community Health Organizations, Oregon Primary Care Association. PRAPARE and its resources are proprietary information of NACHC and its partners, intended for use by NACHC, its partners, and authorized recipients. Do You Possess Organizational Health Literacy?

- **Personal health literacy** is the degree to which individuals have the ability to find, understand, and use information and services to inform health-related decisions and actions for themselves and others.

- **Organizational health literacy** is the degree to which organizations equitably enable individuals to find, understand, and use information and services to inform health-related decisions and actions for themselves and others.
Transfer of Health Information
Start with the Discharge Disposition

M2420. Discharge Disposition
Where is the patient after discharge from your agency? (Choose only one answer.)

<table>
<thead>
<tr>
<th>Enter Code</th>
</tr>
</thead>
</table>

1. Patient remained in the community (without formal assistive services) → Skip to A2123, Provision of Current Reconciled Medication List to Patient at Discharge
2. Patient remained in the community (with formal assistive services) → Continue to A2121, Provision of Current Reconciled Medication List to Subsequent Provider at Discharge
3. Patient transferred to a non-institutional hospice → Continue to A2121, Provision of Current Reconciled Medication List to Subsequent Provider at Discharge
4. Unknown because patient moved to a geographic location not served by this agency → Skip to A2123, Provision of Current Reconciled Medication List to Patient at Discharge

UK Other unknown → Skip to A2123, Provision of Current Reconciled Medication List to Patient at Discharge
Discharge Summary (CoPs §484.55)

- Standard: Discharge or transfer summary content.

1. The HHA must send all necessary medical information pertaining to the patient’s current course of illness and treatment, post-discharge goals of care, and treatment preferences, to the receiving facility or health care practitioner to ensure the safe and effective transition of care.

2. The HHA must comply with requests for additional clinical information as may be necessary for treatment of the patient made by the receiving facility or health care practitioner.
For OASIS - How Can We Transmit This Information?

- **Electronic Health Record (EHR)**
  - Patient Portal
  - Shared Portal
  - Checking this route does not require confirmation that the patient or subsequent provider has accessed the med list (CoPs?)

- **Health Information Exchange (HIE)**
  - Agency participates and used an HIE to electronically exchange the current reconciled medication list with the subsequent provider, patient, family, and/or caregiver

- **Verbal**
  - Verbally communicated by any means—in person, telephone, video-conferencing, etc.
For OASIS - How Can We Transmit This Information?

- **Paper-Based**
  - Transmitted using something such as fax, efax, printout, med profile in home folder

- **Other Methods**
  - Check if the current reconciled medication list was transmitted using another method not listed above (examples-texting, email, CD's)
Policies and Processes

- Consider non-visit discharges
- Consider therapy discharges (and CoPs regarding reconciliation)
- Processes you have in office to send to subsequent provider for OASIS and physician for CoPs
Medications
# High Risk Drug Classes-N0415

## SOC/ROC and Discharge

### N0415. High-Risk Drug Classes: Use and Indication

1. **Is taking**
   Check if the patient is taking any medications by pharmacological classification, not how it is used, in the following classes

2. **Indication noted**
   If Column 1 is checked, check if there is an indication noted for all medications in the drug class

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>
**Brief Interview for Mental Status (BIMS)**

**C0200. Repetition of Three Words**

<table>
<thead>
<tr>
<th>Enter Code</th>
<th>Ask patient: “I am going to say three words for you to remember. Please repeat the words after I have said all three. The words are: sock, blue, and bed. Now tell me the three words.”</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Number of words repeated after first attempt</td>
</tr>
<tr>
<td>0.   None</td>
<td></td>
</tr>
<tr>
<td>1. One</td>
<td></td>
</tr>
<tr>
<td>2. Two</td>
<td></td>
</tr>
<tr>
<td>3. Three</td>
<td>After the patient's first attempt, repeat the words using cues (&quot;sock, something to wear; blue, a color; bed, a piece of furniture&quot;). You may repeat the words up to two more times.</td>
</tr>
</tbody>
</table>

- Must be the patient who answers
- Score on first attempt
- If the patient got them correct, repeat the words using category cues
### C0300. Temporal Orientation (Orientation to year, month, and day)

<table>
<thead>
<tr>
<th>Enter Code</th>
<th>Ask patient: &quot;Please tell me what year it is right now.&quot;</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>A. <strong>Able to report correct year</strong></td>
</tr>
<tr>
<td></td>
<td>0. Missed by &gt; 5 years or no answer</td>
</tr>
<tr>
<td></td>
<td>1. Missed by 2-5 years</td>
</tr>
<tr>
<td></td>
<td>2. Missed by 1 year</td>
</tr>
<tr>
<td></td>
<td>3. Correct</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Enter Code</th>
<th>Ask patient: &quot;What month are we in right now?&quot;</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>B. <strong>Able to report correct month</strong></td>
</tr>
<tr>
<td></td>
<td>0. Missed by &gt; 1 month or no answer</td>
</tr>
<tr>
<td></td>
<td>1. Missed by 6 days to 1 month</td>
</tr>
<tr>
<td></td>
<td>2. Accurate within 5 days</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Enter Code</th>
<th>Ask patient: &quot;What day of the week is today?&quot;</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>C. <strong>Able to report correct day of the week</strong></td>
</tr>
<tr>
<td></td>
<td>0. <strong>Incorrect</strong> or no answer</td>
</tr>
<tr>
<td></td>
<td>1. <strong>Correct</strong></td>
</tr>
</tbody>
</table>

- Allow 30 seconds for each answer
- Do not provide clues
- Answer if correct, or if incorrect, how much did they miss?
Zero Isn’t Always Counted the Same??

What?

Used to represent incorrect answers, refusals, and nonsensical responses.

Treated differently when coding the summary score.

- Incorrect Answer – Asked to state the year-states 1935
- Refusal – What difference does it make when you are as old as I am?
- Nonsensical Response - Purple is my favorite color
**BIMS:**

**C0200 – C0500**

- All responses have been nonsensical OR
- There has been no verbal or written response to any of the questions up to this point, OR
- There has been no verbal or written response to some questions up to this point and for all others, the patient has given a nonsensical response.

### Brief Interview for Mental Status (BIMS)

#### C0200. Repetition of Three Words

<table>
<thead>
<tr>
<th>Enter Code</th>
<th>Ask patient: “I am going to say three words for you to remember. Please repeat the words after I have said all three. The words are: seek, blue, and bed. Now tell me the three words.”</th>
<th>Number of words repeated after first attempt</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>0. None</td>
<td>1. None</td>

Signs and Symptoms of Delirium C1310

- CAM is a standardized evidence-based tool that enables non-psychiatrically trained clinicians to identify and recognize delirium quickly and accurately in both clinical and research settings. The screening tool alerts clinicians to the presence of possible delirium.

- Delirium can be misdiagnosed as dementia.
Mood
### PHQ2-PHQ9

**D0150. Patient Mood Interview (PHQ-2 to 9)**

**Say to patient:** "Over the last 2 weeks, have you been bothered by any of the following problems?"

If symptom is present, enter 1 (yes) in column 1, Symptom Presence. If yes in column 1, then ask the patient: "About how often have you been bothered by this?"

Read and show the patient a card with the symptom frequency choices. Indicate response in column 2, Symptom Frequency.

<table>
<thead>
<tr>
<th>1. Symptom Presence</th>
<th>2. Symptom Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>0. No (enter 0 in column 2)</td>
<td>0. Never or 1 day</td>
</tr>
<tr>
<td>1. Yes (enter 0-3 in column 2)</td>
<td>1. 2-6 days (several days)</td>
</tr>
<tr>
<td>9. No response (leave column 2 blank).</td>
<td>2. 7-11 days (half or more of the days)</td>
</tr>
<tr>
<td></td>
<td>3. 12-14 days (nearly every day)</td>
</tr>
</tbody>
</table>

**A. Little interest or pleasure in doing things**

**B. Feeling down, depressed, or hopeless**

If either D0150A2 or D0150B2 is coded 2 or 3, CONTINUE asking the questions below. If not, END the PHQ interview.

| 2 | Yes, patient was screened with a different standardized, validated assessment and the patient meets criteria for further evaluation for depression. |
| 3 | Yes, patient was screened with a different standardized, validated assessment and the patient does not meet criteria for further evaluation for depression. |
# PHQ-2 – PHQ-9

If either D0150A2 or D0150B2 is coded 2 or 3, CONTINUE asking the questions below. If not, END the PHQ interview.

D0150: Patient Mood Interview/Stopping the Assessment (PHQ-2 to 9)

Say to patient: "Over the last 2 weeks, have you been bothered by any of the following problems?"

If symptom is present, enter 1 (yes) in column 1, Symptom Presence.
If yes in column 1, then ask the patient: "About how often have you been bothered by this?"
Read and show the patient a card with the symptom frequency choices. Indicate response in column 2, Symptom Frequency.

1. Symptom Presence
   0. No (enter 0 in column 2)
   1. Yes (enter 0-3 in column 2)
   9. No response (leave column 2 blank).

2. Symptom Frequency
   0. Never or 1 day
   1. 2-6 days (several days)
   2. 7-11 days (half or more of the days)
   3. 12-14 days (nearly every day)

A. Little interest or pleasure in doing things
B. Feeling down, depressed, or hopeless

Enter Scores in Boxes

D0160. Total Severity Score

Enter Score

Add scores for all frequency responses in Column 2, Symptom Frequency. Total score must be between 00 and 27. Enter 99 if unable to complete interview (i.e., Symptom Frequency is blank for 3 or more required items)

Scoring Rules for D0160-Total Severity Score

- If Symptom Frequency (Column 2) is missing for one or two symptoms, reweight the available values when computing the sum
  - 1 response missing - multiply the sum of the 8 items by 1.125
  - 2 responses missing - multiply the sum of the 7 items by 1.286
- If symptoms frequency (Column 2) is missing for 3 or more symptoms
  - Total severity score equals 99
Pain
### J0510. Pain Effect on Sleep

<table>
<thead>
<tr>
<th>Enter Code</th>
<th>Ask patient: &quot;Over the past 5 days, how much of the time has pain made it hard for you to sleep at night&quot;</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>0. Does not apply – I have not had any pain or hurting in the past 5 days → Skip to M1400, Short of Breath at SOC/ROC; Skip to J1800, Any Falls Since SOC/ROC at DC</td>
</tr>

Now For the Good News!
Recertification Items

- M0080-Discipline completing OASIS
- M0090-Date assessment completed
- M0100-Assessment reason
- M0110-Episode Timing
- M1800-Grooming
- M1810 & M1820-Upper and Lower Body
- M1830-Bathing
- M1840-Toilet Transferring
- M1850-Transferring
- M1860-Ambulation/Locomotion
- GG0130-Self Care
- GG0170-Mobility
- M1033-Risk of Hospitalization
- M1306-Unhealed pressure ulcer
Operationalizing
EMR Investigation

- How will the OASIS-E assessment be laid out?
- Will the EMR calculate items such as BIMS and PHQ-9 total score?
- When will a preview be available?
- Will it have a patient portal or part of a HIE for exchange of health information?
Policy/Procedure Updates

- Policies updated if needed for collection and distribution of transfer of health information.
- Policy around MSW usage (or are contracts current/up to date) - When to use, when not to use.
- Make sure you have updated contracts/policies on Language/Interpreter.
- May want policies around identification of SDoH that impact care and how as an agency you will direct.
- Agency parameter for PHQ-2/9 to notify provider.
Productivity Adjustments

- Will Productivity need to be adjusted?
- 1st Quarter will be SLOWER for your staff!
- Look at SOC/DC weights, along with Recert weights.
- Consider 4 points/day.
Education

- All OASIS Clinicians need to have a progressive education on the new and changed items, especially if the OASIS layout will change in the HER.
- Different instructions depending on the item—Try to give clinicians cue cards to assist them.
- Some items help prompt other areas of consistency.
- Start NOW! Consider role play, especially with the new cognitive/mood sections.
- Tools needed for N0415-Medication classes and O0110—what items are included.
